WAWA
12800 West Bluemound Rd. / Elm Grove, Wisconsin 53122 / 414-786-1590

Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha, Nebraska 68107

We are pleased to verify your reception of WAWA at 1225A-114A CST on December 15, 1980.

Thank you for your letter with the log of our test broadcast.

WAWA broadcasts with a power of 1000 watts, at a frequency of 1590 kilocycles. The four tower atenna system is directional east, toward Milwaukee, from our Elm Grove location. Good listening to you and the Club.

Our modulation was low at the time because we were having trouble with some new tubes.

Sincerely,

Jack C. Krause
